Shippers Agree, A. Duie Pyle is Carrier of Choice in the Northeast for Sixth Year Running

WEST CHESTER, PA, August 7, 2012 – For the sixth consecutive year, A. Duie Pyle has earned the #1 position in Logistics Management magazine's 29th Annual Quest for Quality Awards in the Northeast and Mid-Atlantic Regional LTL (less than-truckload) category. In addition, the weighted ranking system that established A. Duie Pyle as the #1 LTL carrier in the Northeast also recognized ADP Logistics (Business Development Group) and Pyle's PPS/Expedited services as well.

"From safety compliance and fleet modernization to increasing capacity in key markets, we are continuing to invest in all areas of the company and our customers recognize our efforts," said Steve O'Kane, President of A. Duie Pyle, the leading Northeast transportation and logistics provider. "We are also grateful to our Pyle People for their focus on customer satisfaction, which is what sets us apart from other carriers. It is our dedication to reinvestment and our focus on customer service that makes our customers look to Pyle as the carrier of choice. We are sincerely appreciative of their vote of confidence year after year."

Top rankings for A. Duie Pyle extended across their multi-regional service again this year, with long-time partners Dayton Freight Lines and Southeastern Freight Lines each earning top rankings in the Midwest/North Central Regional LTL and South/South Central Regional LTL categories, respectively. As three privately-held, family-owned companies, our regional expertise extends throughout the entire system, stated O'Kane.

The Quest for Quality Award is voted on by readers of *Logistics Management* magazine and is regarded as one of the most reliable measures of customer satisfaction and performance excellence. Recipients have received the "ultimate vote of confidence," with winners posting the highest scores in the various criteria. The five criteria are on-time performance, value, information technology, customer service, and equipment and operations. The Quest for Quality Awards use a weighted metric and take into account the value that each reader gives each attribute. A. Duie Pyle has been included on the magazine's list since 1989.
